

Cancellation and No-Show Policy

Failure to attend each session, by cancelling or not showing, compromises the therapist's ability to assist your child in achieving their highest potential. If there are persistent cancellations, treatment frequency may be modified or terminated.

Therapy sessions will be modified if:

- There is failure to attend and provide greater than 24-hour notice for 3 scheduled appointments within a 1 month period.
 - If the patient has 100% compliance in the next 1 month period, while on the modified schedule, they will return to original frequency of sessions.

Therapy sessions will be terminated if:

- There are 2 consecutive no-shows.
 - Patient has been placed on the modified schedule and 100% compliance was not met.
